Specifications

Construction

Hand crafted, our decorative glass panels stay true to their stained glass roots. Using only solid metals, hand cut glass pieces and polished bevels, each panel is carefully assembled by hand. Once assembled, the panel under goes a thorough cleaning and inspection process. This attention to detail is our assurance of quality, allowing you to admire its beauty for years to come.

Each decorative panel is sealed between two pieces of Tempered Safety* glass, using a state-of-the-art "Warm Edge" spacer bar system. This hermetic dual seal will ensure that your investment will maintain its appearance and give you long lasting performance for years to come.

**Tempered Safety glass is up to four times stronger (impact resistance) than annealed glass, providing piece of mind.*

Warranties

Our products are covered by separate limited warranties. Please contact your dealer for more information.

Privacy Rating

Trimlite offers an extensive line of designs to choose from. To help your decision making process, we have created a "Privacy Rating" for all of our designs. This will help you select the design that has the level of openness or obscurity that suits you best.

Note: This rating is subjective. It should only be used when comparing Trimlite designs.

0
Completely Clear
Objects can be clearly seen through the glass from the opposite side.

5
Diffused/Distorted
Objects are distorted, but can still be detected from the opposite side.

10
Completely Opaque
Only light will travel through from the opposite side.

Caming Options

Hand soldered metals in 3 finishes. See individual product pages for availability.

Brass Caming
Subtle gloss finish that defines luxury and style.

Zinc Caming
Brushed chrome appearance brings a contemporary look to your entrance.

Patina Caming
Black satin finish offers a rustic or antique look to your home.

Glass Options

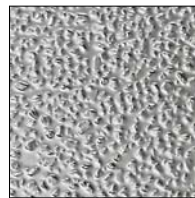

Bubbles, lines, slight surface imperfections or discolourations are characteristics of all hand crafted glass. They are not considered defects.

Internal Blinds

Lift & tilt mini-blinds

- Dust Free.
- Fully raises or lowers like a traditional blind.
- Control light and privacy with easy fingertip tilt adjustment in any position.
- Perfect for patio application.
- Other sizes available*. Contact your dealer for more information.

* Some sizes available as Tilt only

2236

2064 or 2264

Venting

Half-vent complete with removable screen

- Welded PVC frame offers increased rigidity and better seal against air and water.
- True half venting lite allows for maximum ventilation.
- One piece removable screen can be easily removed from the inside.
- Other sizes available. Contact your dealer for more information.

Half vent with removable screen

764 / 2064 or 2264 / 764 White Internal Grid

One Lite

When unobstructed views and maximum light transmission are important.

Available in most standard doorlite sizes. Contact your dealer for a complete list of sizes available in your area.

White Internal Grids

Our 5/8" (16mm) wide grids complement any design and style, creating a classic look.

Available in most standard doorlite sizes. Contact your dealer for a complete list of sizes available in your area.

Need more performance in your doorlite...Consider Cardinal LoE²-272 Glass

Available in the clear and white internal grid glass options, the insulating value of Cardinal's **LoE²-272** patented coating is nearly double that of an ordinary insulated glass unit. In winter, **LoE²-272** reflects heat back into the room. In summer, it rejects the sun's heat and damaging UV rays. The coating is virtually invisible to the eye yet blocks 84% of the sun's harmful ultraviolet rays. In fact, **LoE²-272** is the clearest, highest performing glass you can buy.

Available in most standard doorlite sizes. Contact your dealer for a complete list of sizes available in your area.

Note: Cardinal logo/low E squared 272 is the trademark of Cardinal CG. A Cardinal Glass Industries Company.

Want privacy in your doorlite...Consider these obscure glass options

Glue Chip Obscure

Highly obscure glass with very subtle leaf-like pattern throughout.

Rain Obscure

Very pronounced pattern which is also very obscure.

Pinreed Obscure

(groove width 1/2" - 12.5mm) Vertical lines create a very modern look. The glass is completely obscure.

Available in most standard doorlite sizes. Contact your dealer for a complete list of sizes available in your area.
